

Spinewerttabellen für die gängigsten Pfeiltypen

ACHTUNG! Das ist schon Bogenschießen für Fortgeschrittene!

Belasten Sie sich als Anfänger nicht zu sehr mit dem Spinewert. Fangen Sie erst einmal an zu schießen, das ist an dieser Stelle wichtiger.
Für Sie empfehle ich:

EASTON Trooper Glasfiberpfeil, 27" lang, bis 30 lbs. einsetzbar oder
F-Carbon-Pfeil, ca. 31" lang, 5,2 mm Durchmesser, bis 35 lbs. einsetzbar.

Hier die Tabellen, sortiert nach Sorte und Bogentyp (ohne Gewähr)
